Triumphal ARC

Product: 750AT Total
Body ARC Trainer

Features:

- Load-dependent arc means that resistance is scaled to the user's weight
- Reverse-arc motion never places the user's toe behind the knee, so that legs move in a biomechanically correct pathway, reducing stress at the knee
- The arm and leg on the same side move together, so that the relationship with the arm handle and footplate remains the same, regardless of incline
- Wide range of resistance and incline
- Three exercise zones include low position for "Glide," medium position for "Stride," and high position for "Climb"
- Programs include 8 preset, 9 custom, 2 advanced, and 1 user-selectable heart rate control

Solid Footing

Product: Everlast Sports
Surfacing with Nike Grind

Features:

- Vivid and practical flooring
- Sustainable composition
- Ideal option for facilities seeking to increase conservation efforts without being forced to give up the versatility, high quality, and durability of rubber sports surfacing
- Surfacing passes the most stringent tests for indoor air quality, low-VOC emissions, and is recyclable
